

During the years 1996 to 1999 in the frame of its contract for the Completion and Modernisation of the Mochovce Nuclear Power Plant (Units 1 and 2), Framatome had to perform the translation of an important volume of technical documentation (from Czech to English and from English to Czech languages).

A significant part of this technical translation work was performed successfully by the company NUPSESO Engineering s.r.o according the Quality standards specified by Framatome.
